EDUCATION

B.Sc of Computer Systems Engineering 2021 – 06/2025
Palestine Technical University - Kadoorie (PTUK). Tulkarm
Average 86.7%.

Tawjihi (Scientific Stream) 2020 – 2021
Jalqamous Secondary School. Jenin
Average 98.4%.

PROFESSIONAL EXPERIENCE

Problem Solving Internship At PTUK
what I learned:
- 145 Problem Solved on Codefoces
- 80 Problem Solved on Leetcode

PROJECTS

Graduation Project
Dental Clinic Management System Developed a backend for a web-based dental clinic management system to digitalize the management of patient records, appointments, treatments, and financial operations. The backend implements a dynamic dental map to track treatments per tooth, automated appointment scheduling with reminders, role-based access control, and real-time reporting, ensuring secure, efficient, and scalable operations.

Mangcoding - store
Developed a responsive e-commerce website for an online store using HTML and CSS.

Desktop Application for Construction Company
- Designed and prototyped a full desktop application in **Figma**, focusing on ease of use.
- Built a clear **dashboard** and optimized user flows for project management and invoicing.

Web Application for Dental Clinic
- Created responsive web interfaces for **patient records, and doctor management**.
- Applied a consistent **design system** and conducted usability testing to refine the design.

SKILLS

Back End Development
-C#
-ASP .Net Core
-Swagger
-SQL
Programming Languages
- C++
- C#
- Java
-SQL
Object-Oriented Programming (OOP): Proficient in OOP concepts such as inheritance, polymorphism, encapsulation, abstraction, and design patterns.
Data Structures and Algorithms: Knowledgeable in arrays, linked lists, stacks, queues, trees, graphs, sorting, and searching algorithms.
Design Tools: Figma
Tools & Platforms: Git, GitHub, Postman, SQL Server, and MySQL

LANGUAGES

English (Professional) Arabic (Native)
